

Expo Hospital 2019

August 27 to 29, 2019

Expo Hospital was held on August 27, 28 and 29 and this was when close on 100 local business persons, entrepreneurs and representatives of international products and services exhibited their wares and new features at conferences and in workshops, besides discussing matters such as health, technology and innovation.

In order to cooperate in modernizing health in Chile by means of promoting innovation and the transfer of knowledge and experiences, the 8th version of Expo Hospital was held; a get-together attracting the leading suppliers and administrators of health services in the country.

This fair – the most important in the sector – was organized by FISA from the GL Events Group in *Espacio Riesco* and it attracted high, medium and low complexity hospitals as well as private clinics, out-patient and first-aid centers (APS) as well as clinical laboratories.

On this particular occasion, MundoChile provided its support with its language services on behalf of the delegation from the State of Mississippi (USA), interpreting for the guests and the leading doctor Richard L. Summers, MD, Associate Vice Chancellor for Research of the University of Mississippi during his innovatory talk on the successful case of the telemedicine model in the United States.
