

## **Visit of the Director-General of UNESCO**

*May 2022*

MundoChile is proud to have been able to support UNESCO's Director General, Ms. Audrey Azoulay, with our consecutive interpretation services in English and French this past May.

During her stay in Chile, Ms. Azoulay visited strategic points associated with the organization's mandate, including the historic province of Valparaíso. She stressed that this coastal city is going through a very strategic moment that requires rapid support at the national, regional and local levels, from both civil society and the private sector. The Director General highlighted the experience and support that UNESCO is providing to preserve the cultural heritage of our beloved port of Valparaíso.
